

OUTDOOR GYM AND FITNESS EQUIPMENT

At Rocklyn we are all about diversification and development. We have broken away from the norm to create an innovative range of outdoor fitness equipment for use in parks.

In the past, exercise equipment was designed exclusively for indoor use. However, we have developed and designed a range of outdoor exercise equipment that people may use in public parks or in suitable fitness zones.

We offer a wide range of equipment that covers areas such as: Weight training, Aerobic training, Massage, Stretching and Weight Management.

FROM AEROBIC WORKOUTS, TO IMPROVING BASIC STRENGTH AND WEIGHT TRAINING, OUR RANGE OF FITNESS EQUIPMENT COVERS ALL AREAS

Speed Racer

Speed Racer is the latest innovation from DesignPark. It is designed in mind to encourage kids to exercise dynamically while enjoying an exciting racing game. Speed Racer does not require any external electricity to operate – it is powered by the end-users themselves, making it an eco-friendly product. Kids are able to exercise together, promoting sociability while developing their physical strength at the same time.

- Model no. : GTM13-01
- Size of Bike : L475 x W660 x H965
- Size of Display : L715 x W75 x H1485
- Age : 7~13
- Composition : Two bikes and one display panel

Features

- Eco-friendly self-powered design that does not require any external power source
- Waterproof and dustproof design for both outdoor & indoor use
- Kids are able to exercise while having fun at the same time.
- Utilizes a fully-enclosed, magnetic resistance mechanism.

How to play

- Get ready to race with your friend.
- Game starts with countdown after you start pedalling.
- Make sure you are ahead of your friend during the race.
- Push the button when you pass through the red zone. If you don't push the button, it will be harder to pedal.
- Once one kid reaches the finish line after running three laps, the game is finished and the lights are displayed to show the score and the winner.

Certificates

TÜV certified according to 'DIN 79000/05.12 Permanently installed outdoor fitness equipment'

MATERIAL

Main material: Stainless Steel or Steel
Parts: PVC, Nylon, Aluminium
Coating: Powder Coating
